1. I had an important basketball game last Wednesday, but I was playing soccer with my friends the day before and I twisted my ankle. It was hurting so much that I couldn't play and my team lost that important game!
  - If I hadn't twisted my ankle playing soccer, I could have played in the important basketball game and my team might not have lost.
  - If I hadn't twisted my ankle while playing soccer, I might have been able to play in the important basketball game, and my team could have had a better chance of winning.
  
2. I woke up late and I had to run to the office because my boss asked me to do prepare an important document. After I arrived at the office, I started to feel a little dizzy, and I had to stop doing what I was doing to go eat something. I couldn't have breakfast because I was late, and that made me feel terrible!
  - If I hadn't been in such a rush and had time for breakfast, I might not have felt dizzy at the office and could have focused better on preparing the document.
  - If I had managed to have breakfast despite waking up late, I might not have felt dizzy at the office, and I could have completed the important document more efficiently.
  
3. The sky was black, and it was raining a lot! We didn't bring our umbrellas. We got wet.
  - If we had brought our umbrellas, we wouldn't have gotten wet despite the heavy rain.
  - If we had brought our umbrellas, we wouldn't have gotten soaked in the heavy rain, and our clothes and belongings could have stayed dry.
  
4. My little cousins visited us last weekend. They were playing inside the house, and one of them hit the TV and it fell and broke into pieces. Then, because the TV was broken, they were all bored after they got tired of running and jumping around.
  - If my little cousins hadn't hit the TV, it wouldn't have broken, and they might have stayed entertained throughout the weekend.
  - If my little cousins hadn't accidentally broken the TV, they might have continued to enjoy playing indoors without feeling bored, and their weekend could have been more enjoyable.
